# CONTENTS

## No. 1

| | | |
|---|---|---|
| **Softstrip** | i | Softstrip® data strip containing the contents list of this issue of *Computers & Education* |
| **John Matthews** | 1 | Introducing computers through Forth |
| **Susan Alberty and Brian J. Mihalik** | 9 | Evaluation of microcomputer learning experiences |
| **Robert M. Brown, Henry J. Day II and Nancy L. Meade** | 17 | Computer ownership and grades |
| **Talib A. S. Obaid and Safa M. Alak** | 25 | Application of spreadsheet programs in the learning of numerical methods |
| **Ian M. Franks, Paul Nagelkerke and David Goodman** | 33 | Computer controlled video: an inexpensive IBM based system |
| **A. L. Ananda, H. Gunasingham, K. Y. Hoe and Y. F. Toh** | 45 | Design of an intelligent on-line examination system |
| **T. S. Ho, S. J. McLeay, J. O'Hanlon and R. J. Whiddett** | 53 | Using on-line financial information in teaching |
| **Leonard Goodwin** | 61 | Long term effects of an innovation in computer science instruction |
| **Siripong Malasri and Santiago Maldonado** | 69 | An expert system for teaching concrete mix design |
| **Khalil F. Matta and Gary M. Kern** | 77 | A framework for research in computer-aided instruction: challenges and opportunities |
| **Robert W. Herrmann** | 85 | Computers in Virginia's public high schools |
| **Philippe Duchastel** | 95 | ICAI systems: issues in computer tutoring |
| **Announcement** | I | |
| **Software Survey Section** | III | |

## No. 2

| | | |
|---|---|---|
| **Softstrip** | i | Softstrip® data strip containing the contents list of this issue of *Computers & Education* |

| | | |
|---|---|---|
| **H. W. G. Spraget** | 101 | Spreadsheet simulation of X-ray powder diffraction |
| **Christine Chan** | 109 | Computer use in the elementary classroom—I. An assessment of CAI software |
| **Z. H. Przasnyski** | 117 | On using spreadsheets to model decision problems |
| **Richard Shor** | 129 | The educational importance of Local Area Networks in secondary schools |
| **T. L. Yu** | 135 | Robot-aided-learning (RAL) projects concerning study of finite state machines |
| **Dean M. Oisboid, Leeann Ettinger, Jamal Abedi and Richard J. Shavelson** | 147 | Capturing teachers' decision-making policies using a microcomputer simulation |
| **Ho-Kheong Fong** | 157 | Models for the integration of computing into mathematics curricula |
| **Mesut Göktepe, Bülent Özgüç and Mehmet Baray** | 167 | Design and implementation of a tool for teaching programming |
| **L. Borghi, A. De Ambrosis, G. Gazzaniga, L. Ironi, P. Mascheretti and C. I. Massara** | 179 | Integrating computer simulations and the physics laboratory: a unit dealing with wave propagation |
| **E. C. Anderssen and S. H. von Solms** | 187 | The observation of time in historical field battles |
| **K. Kern Kwong, Chairat Hiranyavasit and Wing Fok** | 199 | An empirical comparison of two pedagogical tools for teaching production/operations management courses |
| **Lee A. Becker and Sanjeev Gupta** | 205 | Intelligent computer-aided instruction for the coding task |
| **Jon-Chao Hong** | 213 | Computer education in R.O.C. high schools |
| **Book Reviews** | 217 | |
| **Software Survey Section** | I | |

No. 3

| | | |
|---|---|---|
| **Softstrip** | i | Softstrip® data strip containing the contents list of this issue of *Computers & Education* |

| | | |
|---|---|---|
| **J. P. Jamison** | 219 | A package of computer programs for teaching experimental physiology and medical statistics |
| **R. Orchardson, I. G. Logan and K. R. Wallace** | 223 | Microcomputers for real-time experiments in physiology teaching laboratories |
| **J. F. Aiton, W. Boyd, A. R. Chipperfield, M. Goldsmith, C. G. Ingram, C. Kidd, P. G. Newman and N. J. Part** | 229 | A CTI project on the co-operative development of CAL in physiology at the Universities of Aberdeen, Dundee and St Andrews |
| **David A. Bender** | 235 | Combining a computer simulation with a laboratory class—the best of both worlds? |
| **Jane Mercer, J. H. Pringle, M. J. L. Rae, P. J. R. Harkin and I. Lauder** | 245 | The laser videodisc for interactive CAL in pathology |
| **K. J. McGlade and K. A. Mills** | 251 | Tape-based IV in a department of general practice |
| **Henry C. Co and S. K. Chen** | 255 | An automation laboratory for MBA education in advanced manufacturing management |
| **Michael Cerullo, Jack Topiol and Lawrence A. Klein** | 265 | Personal computer usage in community college accounting courses |
| **Christine Chan** | 271 | Computer use in the classroom—II. An assessment of using the computer as a tool and as tutee |
| **Lee A. Denson III and Dick K. P. Yue** | 279 | Computer-assisted teaching of marine hydrodynamics |
| **Ihab H. Farag and S. B. Reddy Karri** | 305 | Computer-aided graphics in distillation columns design |
| **Brigitte de La Passardiere** | 313 | CAL and tools for the instructor-user (the features of SPELEO) |
| **Software Survey Section** | I | |

No. 4

| | | |
|---|---|---|
| **Softstrip** | i | Softstrip® data strip containing the contents list of this issue of *Computers & Education* |
| **Louis M. Johnson Jr and Neil F. Riley** | 319 | A financial expert system demonstration for business students |
| **Jan van Beek, Pieter Been and Karel Hurts** | 327 | Computer-based learning for on-line data base search |
| **Stephen M. Alessi and Yu-Fen Shih** | 337 | The growth of computer-assisted instruction in Taiwan schools |

| | | |
|---|---|---|
| **Geoff Arger and Debbie Clayton** | 343 | The use of computers in the instructional process in Australian distance education |
| **Emdad H. Khan** | 355 | The use of computer-assisted learning in a primary school |
| **T. K. Nedelcheva, N. G. Elenkova and L. S. Kostadinova** | 363 | Program for investigating the effect of measurement errors on the accuracy of the calculated results in classical chemical analysis |
| **Georgios I. Doukidis, Roderick A. Rogers and Marios C. Angelides** | 367 | Developing a Pascal tutoring aid |
| **R. Moré and G. Lamouroux** | 379 | PAM: a new software system for students' training |
| **Janice E. J. Woodrow** | 389 | Macros for educational research: Part II |
| **Paul Nixon** | 399 | I.T. education for humanities students: the Lampeter approach |
| **Book Reviews** | 405 | |
| **Software Survey Section** | I | |
